The number of VIP Points you earn depends on the number of Poker Points you earn, and your VIP level when you earn them. As your VIP level increases, the rate at which your Poker Points convert to VIP Points increases (your Points Multiplier).

According to their level players can earn various rewards including exclusive freerolls, VIP bonuses, point's races and more.

Our great monthly bonuses have been updated to become part of our VIP loyalty programme. As you progress through the levels you will be entitled to more bonuses, and remember you can trigger as many bonuses as your VIP level allows you! Therefore if you are in the AMETHYST level you can claim all the bonuses and benefits of all the levels up to AMETHYST!
